THE FAIRVIEW ADVANTAGE

CREATE

We use a wide range of techniques to develop original ideas. We view failure as an opportunity to learn, and understand that analyzing and refining ideas is necessary for innovation to occur.

INNOVATE

We can develop a successful solution to a real-world problem when a new task is presented. We can act on creative ideas to make tangible and useful contributions to the world.

INVESTIGATE

We access, evaluate, and use information efficiently, effectively, and accurately for the issue or problem at hand. We can manage the flow of information from a wide variety of sources.

COLLABORATE

We work with a variety of people from diverse cultures and those who have different experiences and perspectives to discuss issues, resolve problems, and share responsibility fairly. We choose and use appropriate technologies to create shared products.

COMMUNICATE

We communicate respectfully, responsibly, and appropriately in a variety of situations, including face to face, written and digital.

SOLVE PROBLEMS

We solve different kinds of non-familiar problems in both conventional and innovative ways. We ask significant questions that clarify various points of view and lead to better solutions.

LEAD

We publish our work because we believe that we can make a difference in the world. We demonstrate understanding, friendliness, and politeness toward others and conduct ourselves with integrity.

REFLECT

We reflect on the quality of our work, thoughtfully consider feedback from others, and strive to improve both our strengths and weaknesses.

SERVE

We care about others as well as ourselves. We actively pursue opportunities that make a positive difference in the lives of people around us as well as those around the world with empathy, mindfulness and respect.
